BACKGROUND TO THE COMPANY

CQS Funds (Ireland) p.l.c. (the "Company") was incorporated under registration number 484553 on 18 May 2010 and operates in Ireland as a public limited company under the Companies Act 2014. The Company was authorised by the Central Bank of Ireland (the "Central Bank") on 12 August 2010.

The Company is an open-ended investment company with variable capital which has been authorised and regulated by the Central Bank under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, and under the Central Bank (Supervision And Enforcement) Act 2013 (Section 48(1)) (Undertakings For Collective Investment In Transferable Securities) Regulations 2021 (together the "Regulations").

The Company is an umbrella investment company and has segregated liability between its funds and accordingly any liability incurred on behalf of or attributable to any fund shall be discharged solely out of the assets of that fund. As at 31 December 2021, the Company had two active funds in existence (each a "Fund" and collectively the "Funds"), CQS Global Sustainable Convertible Fund (the "GSC Fund") and CQS Sustainable Total Return Credit Fund (the "STRC Fund") which launched on 2 March 2015 and 5 February 2021 respectively. The Funds changed their names from CQS Global Convertible Fund (the "GC Fund") and CQS Total Return Credit Fund (the "TRC Fund") on 1 November 2021 and 8 November 2021 respectively.

CQS New City Global Equity Fund (the "NCGE Fund") and CQS New City North American Equity Fund (the "NCNA Fund") which launched on 9 May 2019 and 4 November 2019 respectively ceased operating as part of CQS Funds (Ireland) plc. Their net assets were transferred in-specie to and merged with Trium Sustainable Innovators Global Equity Fund and Trium Sustainable Innovators North American Equity Fund respectively, both of whom are sub-funds of Trium UCITS Platform plc. The mergers were effective as of 10 June 2021.

INVESTMENT OBJECTIVE

The GSC Fund

The GSC Fund seeks to achieve attractive risk-adjusted returns over the medium to long-term (typically, between six months and one year) primarily through purchasing and holding convertible securities across global markets.

The STRC Fund

The STRC Fund will seek to maximise long-term total returns for shareholders of the Fund, comprising both income and capital growth by sourcing, constructing, and investing in a portfolio of credit and debt instruments.

INVESTMENT POLICY

The GSC Fund

The GSC Fund will seek to achieve its investment objective by sourcing, constructing and investing in a portfolio primarily comprising of convertible bonds across global markets. CQS (UK) LLP (the "Investment Manager") will construct the portfolio with a medium to long term outlook and, consequently, it is expected that investments will typically be held over the medium term.

The STRC Fund

The STRC Fund will seek to achieve its investment objective by making investments in higher yielding debt securities and it may also invest in contingent convertible instruments ("CoCos"), exchange traded funds ("ETFs") and financial derivative instruments ("FDIs").

INVESTMENT MANAGER'S REPORT

for the period ended 31 December 2021

CQS Global Sustainable Convertible Fund

CQS Funds (Ireland) PLC – CQS Global Sustainable Convertible Fund ("the Fund") returned 3.75% net to the C USD Share Class over the period under review.

The Fund is a sub-fund of CQS Funds (Ireland) p.l.c. ("the Company"), an umbrella-type open-ended investment company with variable capital and segregated liability between Funds, governed by the laws of Ireland and authorised by the Central Bank of Ireland as a UCITS pursuant to the Regulations.

The Fund was approved by the Central Bank of Ireland on 12 February 2015 and commenced investment activity on 2 March 2015. The investment objective of the Fund is to seek attractive risk-adjusted returns over the medium to long-term primarily through purchasing and holding convertible securities across global markets.

All comments below refer to the investments in the period between 1 July 2021 to 31 December 2021.

The second half of 2021 was mixed for risk assets, as investors had to deal with headwinds including new Covid-19 variants, rising global inflation and more hawkish central banks.

Until September, market sentiment was positive as post-pandemic re-opening continued and dovish comments from US Fed Chair Jay Powell in his Jackson Hole speech calmed markets. This was despite negative headwinds from the continued spread of the Covid-19 Delta variant and high inflation data released in many regions. The end of the quarter saw a substantial increase in market volatility as inflation fears were compounded by a surge in energy prices, as well as worries that the Chinese property developer Evergrande's debt problems could spill over to the wider economy.

Volatility continued into the fourth quarter of 2021, with inflation and the emergence of the Covid-19 Omicron variant providing a challenging environment for risk assets. Markets did perform well at the beginning of the quarter, especially equities, with better-than-expected Q3 earnings updates from a range of companies, which pushed the S&P 500 index and the technology-heavy Nasdaq index to record highs. As the quarter progressed, there were increased worries about the rapidly increasing Covid-19 case rates in Europe and the emergence of Omicron, which saw markets take a sharp turn lower mid-quarter. Regardless, the year ended on a positive note, with studies suggesting that the Omicron variant is milder than previous variants.

Global issuance was strong throughout the second half of 2021, with \$48.9bn new issues. The majority came from the US with \$28.4bn, followed by Asia and then Europe, which added \$16.5bn and \$4.0bn respectively.

During the period under review, the US led contributions followed by EMEA and then Asia. Information Technology, Consumer Discretionary and Consumer Staples names provided notable contributions. Communication Services, Health Care and Financials were the only detractors. At the security level, BBB rated securities were the highest contributors, followed by those rated A and then single B.

The investment environment contains significant uncertainties, with concerns over the impact of the current and future waves of Covid-19, combining with inflationary signals. Central banks continue to indicate a path to tighter conditions and tapering of asset purchases, in order to contain inflation while also attempting to support both growth and employment. Interest rates are near lows and credit spreads are tight, while equity markets near highs indicates possible market setbacks. This ongoing combination of conditions looks likely to generate diverse outcomes. As a result, our positioning is a portfolio diversified by industry, region, credit quality, duration and investment profile, with enough optionality embedded to capture potential upside while protecting the downside.

During the period, the Fund became classified as Article 8 under the Sustainable Finance Disclosure Regulation. Under SFDR, an Article 8 Fund promotes environmental, social, and governance characteristics.

CQS Sustainable Total Return Credit Fund

The CQS Total Return Credit Fund ('the Fund') launched on 8 February 2021. The Fund is a multi-sector credit solution, which seeks to exploit opportunities primarily across developed market corporate credit to generate high income and capital gains.

The Fund returned 2.27% for the six months to 31 December 2021 (F GBP share class, net of fees).

The period under review saw the momentum of Fixed Income markets slightly slow as investors had to digest rising inflation and potentially less quantitative easing from central banks. In addition, the emergence of the highly infectious Omicron Covid-19 variant led to substantial mark-to-market losses in November. Markets quickly recovered in December, with data indicating a lower risk of severe illness. This proved particularly beneficial for the energy sector, alongside other reopening trades. Interestingly, sentiment was also not materially affected by the US Fed's indication that it would potentially accelerate the pace of tapering, and increase the number of projected rate hikes.

INVESTMENT MANAGER'S REPORT

for the period ended 31 December 2021(continued)

CQS Sustainable Total Return Credit Fund (continued)

In this environment, we retained a defensive positioning seeking to mitigate the risks default with a bias towards High Yield bonds, where we have seen declining default rates. Across asset classes, we favoured Europe over the US given the relative value and lower forwards-looking defaults in Europe. This approach, and a focus on sector exposure rather than credit ratings, benefited performance.

As the period progressed, and given the current elevated valuations in US High Yield, we reduced our allocation to the asset class. We also sought to enlarge our exposure to Europe by increasing the portfolio's allocation to European conviction positions in both High Yield and Financials, which benefitted performance.

Over the period, Europe led contributions followed by the US. Consumer Discretionary, Financials and Communication Services led returns; no individual sector detracted. At the ssecurity level, Single B rated securities were the highest contributors, followed by those rated CCC. No individual rating category detracted over the period.

The Fund continues to be fundamentally defensively positioned, with low exposure to Covid-19 sensitive businesses and high exposure to companies with a strong fundamental outlook. We have engaged a number of different companies over the period, which has enhanced our understanding and helped to manage the risks associated with those individual issuers.

We are positive on corporate fundamentals and potential economic growth in Europe and the US. However, we believe that credit markets will be characterised by higher mark-to-market volatility in 2022 versus 2021.

Our approach, however, remains essentially the same: we exploit the sub-Investment Grade universe on behalf of our investors, with the aim of responsibly lending to the right businesses and allocating to the right sectors and geographies, in order to access strong, visible income for the Fund and capture capital gains from credit spread tightening.

During the period, the Fund became classified as Article 8 under the Sustainable Finance Disclosure Regulation. Under SFDR, an Article 8 Fund promotes environmental, social, and governance characteristics.

^{*} CQS New City Global Equity Fund and CQS New City North American Equity Fund ceased operations on 10 June 2021.

NOTES TO THE FINANCIAL STATEMENTS

for the financial period ended 31 December 2021

1. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

These condensed interim financial statements for the financial period ended 31 December 2021 have been prepared in accordance with IAS 34, "Interim Financial Reporting" and should be read in conjunction with the Company's audited annual financial statements for the year ended 30 June 2021, which have been prepared in accordance with European Union ("EU") endorsed International Financial Reporting Standards ("IFRS") and interpretations adopted by the International Accounting Standards Board ("IASB"), the Irish Companies Act 2014 and the Regulations. As a result, these financial statements do not contain all of the information and disclosures required in the annual financial statements.

These condensed interim financial statements are unaudited. We note that the statutory auditor's report in the Company's audited financial statements for the financial year ended 30 June 2021 was unqualified.

The accounting policies, estimates, judgments and methods of calculation applied in these condensed interim unaudited financial statements are consistent with those applied in the Company's audited annual financial statements for the financial year ended 30 June 2021. The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets, financial liabilities and derivative financial instruments at fair value through profit or loss.

(b) New standards, amendments and interpretations issued and effective for the financial year beginning 1 January 2021

There are no new standards, amendments or interpretations issued and effective for the financial year beginning 1 January 2021 that have a significant impact on the Company's financial position, performance or disclosures in its financial statements.

(c) New standards, amendments and interpretations issued but not effective for the financial year beginning 1 Jan 2021 and not early adopted

IFRS 17: Insurance Contracts, was issued in May 2017 and will become effective for accounting periods beginning on or after 1 January 2023. It applies to: insurance contracts, including reinsurance contracts, issued by an entity; reinsurance contracts held by an entity; and investment contracts with discretionary participation features issued by an entity that issues insurance contracts. An insurance contract is defined as 'a contract under which one party (the issuer) accepts significant insurance risk from another party (the policyholder) by agreeing to compensate the policyholder if a specified uncertain future event (the insured event) adversely affects the policyholder'. The new standard is not expected to have a significant impact on the Company's financial position, performance or disclosures in its financial statements.

2. TAXATION

The Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. Under current Irish law and practice, the Company is not liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event. Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or on the ending of a "Relevant Period". A "Relevant Period" being an eight year period beginning with the acquisition of the shares by the shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A chargeable event does not include:

- Any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland; or
- An exchange of shares representing one fund for another fund of the Company; or
- iii. An exchange of shares arising on a qualifying amalgamation or reconstruction of the Company with another fund; or
- iv. Certain exchanges of shares between spouses and former spouses.

No tax will arise on the Company in respect of chargeable events relating to:

- A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, is held by the Company; or
- ii. Certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations; or
- iii. Any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners (such as CREST).

NOTES TO THE FINANCIAL STATEMENTS

for the financial period ended 31 December 2021 (continued)

2. TAXATION (CONTINUED)

Subject to their personal circumstances (and provided that the market value of the Company's qualifying investments is not at any time in a relevant period more than 60 per cent of the market value of all the assets of the Company (excluding cash awaiting investment)). Shareholders who are resident in the United Kingdom for taxation purposes will be liable to United Kingdom income tax (but with a non-payable tax credit equal to one-ninth of the amount or value of the grossed up dividend) or corporation tax. If the criteria for exemption set out in Part 9 A of Corporation Act 2009 are not met, in respect of dividends or other distributions of an income nature made by the Company, whether or not such dividends or distributions are reinvested.

A shareholder which is a company which directly or indirectly controls not less than 10 per cent of the voting power of the Company may obtain a credit against its United Kingdom taxation liability in respect of income distributions by the Company for any taxes suffered or paid by the Company on its own income. If the market value of the Company's qualifying investments exceeds 60 per cent of the market value of all the assets of the Company (excluding cash awaiting investment) at any time in a relevant period, dividends received by non-corporate shareholders will be taxed as if they were payments of interest. In such a case no dividend tax credit will be available and the tax rates applying will be those applying to interest.

Capital gains, dividends and interest received may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its shareholders.

Uncertainties exist with respect to the interpretation of complex tax regulations and changes in tax laws on foreign withholding tax. Given the wide range of international investments, differences arising between the actual investment income and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax expense already recorded. The funds establish provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which they invest. The amounts of such provisions are based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective investment's domicile. As the funds assess the probability for litigation and subsequent cash outflow with respect to taxes as remote, no contingent liability has been recognised.

^{*} CQS New City Global Equity Fund and CQS New City North American Equity Fund ceased operations on 10 June 2021.

4. OPERATING EXPENSES

Investment Management fees

The Investment Manager receives monthly investment management fees equal to 1/12 of 0.50% per annum of the Net Asset Value ("NAV") of the Class C Shares, 1/12 of 0.65% per annum of the NAV of the Class I Shares, 1/12 of 0.40% per annum of the NAV of the Class S Shares and 1/12 of 1.50% per annum of the NAV of the Class A Shares on the GSC Fund.

^{**} The CQS Sustainable Total Return Credit Fund launched on 5 February 2021.

NOTES TO THE FINANCIAL STATEMENTS

for the financial period ended 31 December 2021 (continued)

4. OPERATING EXPENSES (CONTINUED)

Investment Management fees (continued)

The Investment Manager receives monthly investment management fees equal to 1/12 of 0.80% per annum of the NAV of the Class I Shares, 1/12 of 0.35% per annum of the NAV of the Class F Shares, 1/12 of 0.65% per annum of the NAV of the Class C Shares and 1/12 of 1.50% per annum of the NAV of the Class A Shares on the STRC Fund.

There is no allocation or charge of the Investment Management fee against the Class M Shares in either the GSC Fund or the STRC Fund.

Such fees are payable monthly in arrears and are accrued and calculated as at each Valuation Point. The Investment Management fee charged to the Company for the financial period ended 31 December 2021 was €492,675 (31 December 2020: €744,685), of which €253,209 was outstanding 31 December 2021 (30 June 2021: €155,662).

Operating expenses rebate

The annual cap for operating expenses is set at 25 basis points of the NAV in respect of operating expenses, excluding any Investment Management fee incurred by the GSC Fund in respect of all share classes excluding Class I4. For Class I4, the annual cap is set at 20 basis points of the NAV. On the STRC Fund, the annual cap is set at 25 basis points of the NAV in respect of operating expenses, excluding any Investment Management fee for all share classes.

Any operating expenses, including Administration fees, Depositary and trustee fees, Directors' fees, Auditor's remuneration and Transaction costs, in excess of the cap, are borne by the Investment Manager. For the financial period ended 31 December 2021, the operating expenses rebate to the Company was €157,530 (31 December 2020: €183,814), of which €159,308 was outstanding at 31 December 2021 (30 June 2021: €379,401).

Administration fees

The Company pays the Administrator out of the assets of the Company an annual fee, accrued at each Valuation Point and payable monthly in arrears. The administration fee charges are listed below:

Total Net Assets per FundAnnual basis points feeFirst €500 million6.00 bpNext €500 million5.00 bpExcess above €1,000 million4.00 bp

The Company pays the Administrator out of the assets of the Fund a monthly minimum fee for the Fund (the "Minimum Fee") as follows:

- (i) no minimum fee shall apply for months 0 to 6 of the Fund;
- (ii) USD7,000 for months 7 to 12 of the Fund;
- (iii) USD10,000 for months 13 to 18 of the Fund;
- (iv) USD12,500 for months 19 to 24 of the Fund; and
- (v) USD15,000 for months 24 onwards.

The Administrator is also entitled to have all of its reasonable out-of-pocket expenses incurred on behalf of the Company which shall include legal fees, couriers' fees and telecommunication costs and expenses together with value added tax, if any, thereon.

The Administration fee charged to the Company for the financial period ended 31 December 2021 was €151,850 (31 December 2020: €197,706), of which €87,173 was outstanding at 31 December 2021 (30 June 2021: €35,726).

Depositary and trustee fees

The Depositary charges a fee of 0.50bp per annum on total net assets at umbrella level subject to a minimum fee of €9,000 per annum of total net assets at umbrella level. The Depositary is also reimbursed by the Company in respect of the Fund for any reasonable out-of-pocket expenses necessarily incurred in the performance of its duties for the Fund. The Depositary is also entitled to Trustee fees as listed below:

Total Net Assets per Fund	Annual basis points fee
First €500 million	1.25 bp
Next €500 million	1.00 bp
Excess above €1.000 million	0.80 bp

The total Depositary and trustee fees charged to the Company during the financial period ended 31 December 2021 was €97,899 (31 December 2020: €133,603), of which €108744 was outstanding at 31 December 2021 (30 June 2021: €37,283).

NOTES TO THE FINANCIAL STATEMENTS

for the financial period ended 31 December 2021 (continued)

4. OPERATING EXPENSES (CONTINUED)

Directors' fees

The Directors are entitled to fees which in the aggregate do not exceed €60,000 per annum for the initial Fund of the Company and such additional fees as may be agreed in respect of each subsequent Fund at the time of launch which in the aggregate do not exceed €22,500 per annum for each Fund or such other maximum amount as may be disclosed in the Supplement for the relevant Fund.

The Directors, or where applicable the service provider of the Director, may also be paid for all travelling, hotel and other expenses properly incurred by the Director in attending and returning from meetings of the Directors or any committee of the Directors or general meetings of the Company or in connection with the business of the Company. The Directors' fees charged to the Company during the financial period were €24,997 (31 December 2020: €43,715). Directors' fees of €533 was outstanding at 31 December 2021 (30 June 2021: €2,073).

5. SHARE CAPITAL

Authorised

The authorised share capital of the Company is 1,000,000,000,000 redeemable participating shares of no par value initially designated as unclassified shares and 300,002 subscriber shares of €1 each.

<u>Subscriber shares</u>

These shares do not entitle the holders thereof to any dividend and on a winding up entitle the holders thereof to receive the consideration paid up thereon but do not otherwise entitle them to participate in the assets of the Company. There are 2 subscriber shares currently in issue and these are held by CQS (U.K.) LLP and were issued at €1 per share. The subscriber shares are classified as equity and do not form part of shareholders' funds, and are disclosed in the financial statements by way of this note only.

Management shares

Management shares will only be available to (directly or indirectly for the beneficial entitlement of) the Directors, officers, employees and consultants of, and funds managed by, the Investment Manager and/or its connected persons and clients.

Redeemable participating shares

The rights attaching to the shares shall not be deemed to be varied by the creation, allotment or issue of any further shares ranking pari passu with shares already in issue. There are no rights of pre-emption upon the issue of shares in the Company.

As a result of the ability to issue, repurchase and resell shares, the capital of the Company can vary depending on the demand for redemptions and subscriptions to each Fund.

The Funds are not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of redeemable shares beyond those included in the Company's constitution and the UCITS Regulations. The Company's objectives for managing capital are consistent with the investment strategy of each Fund.

The movement in the number of redeemable participating shares for the financial period ended 31 December 2021 is as follows:

NOTES TO THE FINANCIAL STATEMENTS

for the financial period ended 31 December 2021 (continued)

6. RELATED PARTIES

The following parties are considered related parties of the Funds:

Transactions with entities with significant influence

Details of all fees paid to the Directors and the Investment Manager are disclosed in Note 4.

The Investment Manager compensates the GSC Fund and the STRC Fund for operating expenses incurred in excess of the annual cap, as set out in Note 4.

There are 2 subscriber shares currently in issue and these are held by CQS (U.K.) LLP. All the Management shares in issue are held by (or for the beneficial entitlement of) the Investment Manager and/or any of their Directors, partners, officers, employees and any entities advised or managed by the Investment Manager.

Transactions with key management personnel

The Directors are entitled to receive fees and expenses as set out in Note 4.

Barry Harrington is a director of KB Associates. Andrea Oman is an employee and shareholder of KB Associates. KB Associates provide anti-money laundering reporting, consultancy and company secretarial services to the Company.

7. DISTRIBUTIONS

There were no distributions paid or payable during the financial period ended 31 December 2021 (31 December 2020: Nil).

8. SOFT COMMISSIONS

There were no soft commission arrangements in place as at 31 December 2021 (31 December 2020: Nil).

9. NET ASSETS ATTRIBUTABLE TO SHAREHOLDERS

The NAV and NAV per share of the GSC Fund, the NCGE Fund, the NCNA Fund and the STRC Fund as at 31 December 2021, 30 June 2021 and 31 December 2020 are presented below. Total NAVs are presented in the presentation currency of the relevant Fund and not the currency of the Share Class. NAVs per Share are presented to three decimal places in the currency of the respective Share Class.

10. EFFICIENT PORTFOLIO MANAGEMENT

Total NAV at last traded market prices

The Company, on behalf of the GSC Fund and the STRC Fund may employ techniques and instruments relating to transferable securities and/or other financial instruments for efficient portfolio management purposes. The use of techniques and instruments for efficient portfolio management purposes is subject to the conditions and the limits laid down by the UCITS regulations. The term "efficient portfolio management" refers to transactions that are entered into with the aim of reducing risk, reducing cost or generating additional capital for the relevant fund with an appropriate level of risk, taking into account the risk profile of the GSC Fund and the STRC Fund as described in the Prospectus, the relevant Supplements and the risk diversification rules set out in the UCITS regulations. Throughout the financial period ended 31 December 2021 and the financial year ended 30 June 2021, the Funds entered into forward foreign currency exchange contracts for efficient portfolio management purposes from a share class hedging perspective, and the STRC Fund entered into future contracts and credit default swaps.

US\$ 14,235,321

Stock lending Agreements

The GSC Fund and the STRC Fund may enter into stock lending agreements for efficient portfolio management purposes. In such transactions all the three funds may temporarily transfer its securities to the borrower, with agreement by the borrower to return equivalent securities to the GSC Fund and the STRC Fund at a pre-agreed time. The GSC Fund and the STRC Fund will receive collateral from the borrower under the terms of the stock lending arrangements. In entering into stock lending agreements, the Funds will be endeavoring to increase the returns on their portfolio of securities by receiving a fee for making their securities available to the borrower. At 31 December 2021 and 30 June 2021, the Funds had not entered into any stock lending agreements.

11. COLLATERAL

i) Counterparty Owned Collateral

Counterparty cash may be received by a Fund as collateral for financial derivative instruments ("FDIs"). A liability to repay the collateral is recognised on the Statement of Financial Position as 'Cash collateral due to counterparties'.

ii) Collateral Pledged by Funds

A Fund's assets may be deposited by or on behalf of the Fund for collateral purposes with counterparties for FDI held on the Funds. Such assets remain in the ownership of the relevant Fund and are recorded as an asset on the Statement of Financial Position. Cash pledged by the Funds as collateral is recognised on the Statement of Financial Position as 'Cash held with counterparties as collateral'.

As at 31 December 2021, cash collateral of €1,405,358 has been received by the Funds, from counterparties for open forward currency exchange contracts, and held by the Depositary (30 June 2021: €134,975). At the financial period end the cash collateral of €360,158 (30 June 2021: €632,538) has been pledged by the Funds to counterparties for open forward currency exchange contracts and held by the relevant counterparty.

As at 31 December 2021 and 30 June 2021, there were no other counterparties to the Company and therefore there was no deed of charge over any of the other financial assets held by the Company.

NOTES TO THE FINANCIAL STATEMENTS

for the financial period ended 31 December 2021 (continued)

12. FINANCIAL DERIVATIVE INSTRUMENTS

The Funds may invest in certain FDIs for efficient portfolio management, hedging, and investment purposes. The Company uses a risk management process that enables it to accurately measure, monitor and manage the various risks associated with the FDIs used by it.

To the extent that the Funds use FDIs, it may be leveraged through their use of those FDIs but such leverage will not exceed 100 per cent. of the Funds' Net Asset Value. The Funds employ the commitment approach to measure global exposure and to ensure that the Funds' use of FDIs are within the Central Bank's limits.

The FDIs note should be read in conjunction with the last audited annual financial statements for the financial year ended 30 June 2021, the schedule of investments, where details of the counterparties used are disclosed, and with the Collateral note below.

The types of instruments used currently are summarised as follows:

Credit Default Swaps

Credit Default Swaps ("CDS") provide a measure of protection against defaults of debt issuers. The Fund's use of CDS does not assure their use will be effective or will have the desired result. The Fund may at the discretion of the Investment Manager be the buyer and/or seller in CDS transactions. Credit default swaps are transactions under which the parties' obligations depend on whether credit events have occurred in relation to a reference entity (or certain reference entities making up an index). The categories of credit event are specified in the contract and are intended to identify the occurrence of a significant deterioration in the creditworthiness of the reference asset (or constituents of the relevant index).

The buyer in a CDS contract is obligated to pay the seller a periodic stream of payments over the term of the contract so long as no credit event on an underlying reference entity has occurred. If the Fund is a buyer and no credit event occurs the Fund's losses will be limited to the periodic stream of payments over the term of the contract. As a seller, the Fund will receive a fixed rate of income throughout the term of the contract, provided that there is no credit event. In the event of credit event relating to a CDS reference entity the seller will typically make a cash settlement payment to the buyer.

The CQS Sustainable Total Return Credit Fund entered into CDS transactions, with the aim to hedge against market or credit risk, or to gain synthetic exposure to the underlying reference asset.

Forward Foreign Exchange Contracts

Both Funds used forward foreign currency exchange contracts. These are used both in order to hedge unwanted currency risk as well as to achieve a specific currency exposure.

A forward contract locks-in the price at which an asset may be purchased or sold on a future date. In currency forward contracts, the contract holders are obligated to buy or sell the currency at a specified price, at a specified quantity and on a specified future date.

Future contracts

Futures are contracts to buy or sell a standard quantity of a specific asset (or, in some cases, receive or pay cash based on the performance of an underlying asset, instrument or index) at a pre-determined future date and at a price agreed through a transaction undertaken on an exchange. Since these contracts are marked-to-market daily, investors can, by closing out their position, exit from their obligation to buy or sell the underlying assets prior to the contract's delivery date.

The CQS Sustainable Total Return Credit Fund entered into futures contracts to hedge against market risk.

13. FINANCIAL RISK MANAGEMENT

The activities of each Fund exposes it to various financial risks such as market risk (including market price risk, interest rate risk, and currency risk), credit risk and liquidity risk. The portfolio management process seeks to manage risk in a manner consistent with each Fund's investment objectives. The Company's financial risk management objectives and policies applied during the financial period under review are consistent with those disclosed in the Company's audited annual report and financial statements as at and for the financial year ended 30 June 2021.

NOTES TO THE FINANCIAL STATEMENTS

for the financial period ended 31 December 2021 (continued)

14. FAIR VALUE HIERARCHY

IFRS 7 "Improving Disclosures about Financial Instruments", requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy of inputs is summarised in the three broad levels listed below.

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the assets or liabilities that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability. The determination of what constitutes "observable" requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table presents the fair value hierarchy the Company's financial assets (by class) measured at fair value at 31 December 2021.

14. FAIR VALUE HIERARCHY (CONTINUED)

The following table presents the fair value hierarchy the Company's financial assets (by class) measured at fair value at 30 June 2021.

	Level 1	Level 2	Level 3	Total Fair Value
The GSC Fund	€	€	€	€
Assets				
Financial assets at fair value through profit or loss: Held for trading Transferable securities:				
Convertible bonds	-	89,735,921	-	89,735,921
Forward foreign currency exchange contracts	-	467,726	-	467,726
Total financial assets at fair value through profit or loss	-	90,203,647	-	90,203,647
Liabilities Financial liabilities at fair value through profit or loss: Held for trading				
Forward foreign currency exchange contracts	-	(902,093)	-	(902,093)
Total financial liabilities at fair value through profit or loss	-	(902,093)	-	(902,093)

	Level 1	Level 2	Level 3	Total Fair Value
The STRC Fund*	£	£	£	£
Assets				
Financial assets at fair value through profit or loss: Held for trading Transferable securities:				
Corporate bonds	-	51,752,175	-	51,752,175
Forward foreign currency exchange contracts	-	1,161,614	-	1,161,614
Total financial assets at fair value through profit or loss	-	52,913,789	-	52,913,789
Liabilities				
Financial liabilities at fair value through profit or loss: Held for trading				
Futures contracts	(44,709)	-	-	(44,709)
Forward foreign currency exchange contracts	-	(538,880)	-	(538,880)
Total financial liabilities at fair value through profit or loss	(44,709)	(538,880)	-	(583,589)

^{*} The CQS Sustainable Total Return Credit Fund launched on 5 February 2021.

Investments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include exchange traded derivatives - futures contracts.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include bonds and OTC derivatives. As Level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or no transferability, which are generally based on available market information. The fair value of these financial assets and financial liabilities that cannot be derived from active markets, are determined from prices received from the approved counterparty and from using a variety of valuation techniques that include the use of mathematical models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. The judgements include considerations of liquidity and model inputs such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. The models are calibrated regularly and tested for validity using prices from any observable current market transactions in the same instrument (without modification or repackaging) or based on any available observable market data. This modelled price is then validated by comparing to the counterparty price.

Cash and cash equivalents include deposits held with banks and are categorised as Level 1.

NOTES TO THE FINANCIAL STATEMENTS

for the financial period ended 31 December 2021 (continued)

14. FAIR VALUE HIERARCHY (CONTINUED)

Receivable for investments sold and other receivables include the contractual amounts for settlement of trades and other obligations due to the Company. Payable for investments purchased and other payables represent the contractual amounts and obligations due by the Company for settlement of trades and expenses. All receivable and payable balances are categorised as Level 2.

The puttable value of redeemable participating shares is calculated based on the net difference between total assets and all other liabilities of each Fund within the Company. A demand feature is attached to these shares, as they are redeemable at the holders' option and can be put back to the Funds at any dealing date for cash equal to a proportionate share of the Fund's net asset value attributable to the share class. The fair value is based on the amount payable on demand. As such, Level 2 is deemed to be the most appropriate categorisation for net assets attributable to holders of redeemable participating shares.

There were no transfers between any levels during the financial period ended 31 December 2021 or during the financial year ended 30 June 2021.

15. EXCHANGE RATES

Where applicable, the Administrator used the financial period/year end exchange rates listed below to translate foreign currency amounts, fair value of investments and other assets and liabilities not held in the presentation currency of the relevant Fund:

EUR	31 December 2021	30 June 2021
CHF	1.03740	1.09671

The average exchange rates used in the combined Statement of Comprehensive Income and the Statement of Changes in Net Assets attributable to Holders of Redeemable Participating Shareholders for the financial period ended 31 December 2021 and comparative financial period ended 31 December 2020 are as follows:

	31 December 2021	31 December 2020
EUR		
GBP	0.85159	N/A
USD	-	1.18717

NOTES TO THE FINANCIAL STATEMENTS

for the financial period ended 31 December 2021 (continued)

16. CONNECTED PARTIES

Regulation 43 (1) of the Regulations "Restrictions on transactions with connected persons" states that "a responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the unit-holders of the UCITS".

As required under Regulation 81 (4), the Directors, as responsible persons are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected party; and all transactions with connected parties that were entered into during the financial period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

17. SIGNIFICANT EVENTS DURING THE FINANCIAL PERIOD

The CQS Global Convertible Fund changed name to CQS Global Sustainable Convertible Fund on 1 November 2021 and the CQS Total Return Credit Fund changed name to CQS Sustainable Total Return Credit Fund on 8 November 2021. The relevant Supplements were issued on those dates for the Funds.

There were no other significant events affecting the Company since the financial period ended 31 December 2021.

18. SIGNIFICANT EVENTS POST FINANCIAL PERIOD END

There were no significant events affecting the Company since the financial period ended 31 December 2021.

19. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved by the Board of Directors on 16 February 2022.

as at 31 December 2021

The counterparty for the open forward foreign currency exchange contracts is State Street Bank & Trust.

The broker for the open futures contracts is Credit Suisse.

The counterparty for credit default swaps is Credit Suisse and Morgan Stanley.

SCHEDULE OF SIGNIFICANT PORTFOLIO CHANGES

In accordance with the Regulations, a statement of largest changes in the composition of the Schedule of Investments during the reporting period is provided to ensure that shareholders can identify changes in the investments held by the Fund. These are defined as the aggregate purchases and sales of an investment (including maturities but excluding repurchase agreements, overnight discount notes and time deposits, which are employed chiefly as a means of seeking to ensure efficient portfolio management) exceeding 1.00% of the total value of purchases and sales for the financial period. At a minimum the largest 20 purchases and sales are listed.
