Excluded Securities	Derivatives (except for currency hedging), reverse convertibles, synthetic convertibles
Borrowings	The Fund is permitted to borrow up to 10% of the Fund's NAV on a temporary short-term basis
Anti-Dilution Levy	Partial Swing Pricing with transaction costs and threshold to be set by the Manager (maximum 2% of NAV)

Description

- Convertible bond strategy seeking equity-like returns (6-8% net) with lower volatility (5-7%) over a market cycle.²
- Managed by James Peattie (Senior Portfolio Manager), supported by a global team of portfolio managers, analysts and traders.
- Convertibles are a core product at CQS. The Firm manages long-only convertibles across pooled and dedicated mandates for institutional investors globally.

Key Advantages for the Investor

- Long-term delivery:** UCITS compliant, long-only convertible Fund seeking attractive risk-adjusted returns over the medium-to-long term.
- Sustainability focus:** The Fund is classified as Article 8 under the Sustainable Finance Disclosure Regulation (SFDR). This reflects the binding commitments the Fund has made.

The value of securities may go down as well as up, depending on the performance of companies and general market conditions.

Investors should note that, relative to the expectations of the Autorité des Marchés Financiers, this UCITS presents disproportionate communication on the consideration of non-financial criteria in its investment policy.

Source: CQS. Please refer to page 6 for sources relating to relevant footnotes. Information about the Fund and copies of the prospectus, the supplement, the key investor information documents, the latest audited annual report and accounts and any subsequent unaudited semi-annual reports may be obtained free of charge from the administrator, State Street Fund Services (Ireland) Limited (the Administrator) or the investment manager, CQS (UK) LLP upon request. The Fund is authorised in Ireland and regulated by the Central Bank of Ireland. Please refer to the FE fundinfo Crown Fund Rating Disclosure at the end of this document. Ratings are not a recommendation. The value of securities may go down as well as up, depending on the performance of companies and general market conditions. The value at which securities in certain companies can be liquidated may differ, sometimes significantly, from the interim valuations. Investment in securities of certain companies may be less liquid, more volatile and subject to greater risks than securities of other companies. Investment in emerging markets may increase the volatility of the Fund's Net Asset Value, and accordingly, an investment in the Fund's Shares may be worth more or less on redemption than their original purchase value. As the Fund may invest in derivatives, such as swaps, it may lose more than the amount invested in such derivatives. Investors in shares denominated in a currency other than the base currency of the Fund may be affected by changes in currency movements. For full details of the relevant risks reference should be made to the risk factors sections of the Prospectus and Supplement.

Commentary⁵

Market

Below-expectation inflation prints in both Europe and the US lifted investors' hopes of a dovish central bank pivot, fuelling a rally in both stocks and bonds in November. Hopes of less aggressive rate hikes were further supported by US Federal Reserve (Fed) meeting minutes, which showed that a majority of officials agreed it would soon be time to slow the pace of hiking. These hopes were further bolstered by comments from Fed chair Jay Powell at the end of the month suggesting less severe hikes to come.

In cash credit indices, US Investment Grade (IG) (C0A0) was up 4.9% and High Yield (HY) (H0A0) up 1.9%. In Europe, IG (ER00) and HY (HP00) were up 2.8% and 3.7% respectively. Equities also rallied strongly during the month. The S&P 500 and Euro Stoxx indices finished up 5.6% and 9.7% respectively in November. In Asia, the Hang Seng rallied 26.8%, due to signs suggesting that China was inching away from its Zero-Covid strategy. Oil prices fell during the month with WTI falling to \$81/bbl at the end of November, from \$87/bbl at the end of October.

Performance

The top three single-name contributors were ON Semiconductor, the US semiconductor supplier, Silicon Laboratories, the fabless global technology company, and the Finnish stainless steel group, Outokumpu.

The top three single-name detractors were Pioneer Natural Resources, the US energy company, SoFi, the US fintech company, and the Vietnam-based real estate group, Novaland.

Global primary issuance picked up again in November, with \$7.2bn of new issues. \$3.6bn came from the US, with Europe contributing \$2.6bn and Asia \$1.0bn.

Positioning

The Fund remained disciplined on pricing and participated in the primary market with the new issue Iberdrola 0.8% 2027.

In November, the Fund participated in the Dexu operation whereby the company issued the Dexu 3.5% 2027 and repurchased a portion of the Dexu 2.3% 2024-26. The Fund additionally increased its exposure after the operation.

During the month, the Fund selectively added to existing positions including, in Europe, BNP 0% 2025, GEA (GBL) 0% 2023 and Neoen SA 2.875% 2027 (Green); in Asia and Japan, Cyberagent 0% 2029 and Wilmar (ADM) 0% 2023; and in the US, Array Tech 1% 2028 144a and Silicon Labs 0.625% 2025.

Responsible Investment

As the Fund is committed to achieve net zero by 2050 or sooner, we consider the net zero and decarbonisation commitments of the underlying portfolio companies. JetBlue Airways, a US airline, has recently announced a science-based emissions reduction target and strategy to achieve net zero by 2040. When a portfolio company sets decarbonisation targets, we often encourage them to seek third-party validation (such as from the Science-Based Targets initiative). It is pleasing to see that JetBlue have taken this step and that their business strategy is aligned with achieving the Fund's goal.

Outlook

In summary, tensions remain within markets as we head towards 2023. Equities, credit and rates have recovered from the lows, posted earlier in the year, on hopes that the end to interest rate rises is within sight. Concerns of a recession have overtaken inflation worries in several regions. Geopolitical tensions remain, although the winter appears likely to afford a lull in activity. Supply chain and demand constraints raise the spectre of selective mismatches between demand and supply. In our view, the Fund is positioned to be able to capture potential upside as well as to protect against further downside in markets. Convertibles have repriced this year and in our opinion offer attractive value especially in balanced instruments and lower priced issues offering attractive yields.

James Peattie
Senior Portfolio Manager

Responsible Investing

The Fund's portfolio currently exhibits the following characteristics:

lower carbon emission intensity than the Refinitiv Global Focus Convertible Index

Weighted Average Carbon Intensity (WACI, t/\$m revenue)⁶

118 Fund

234 Reference Index⁷

Weighted Average ESG Rating

A

Less than 6% of the portfolio is invested in issuers with an ESG rating of B or lower.

Restrictions & Considerations

As part of CQS' Firm-wide process to drive sustainability, we focus on companies which demonstrate sound ESG characteristics as well as adaptability and resilience in the transition to a low carbon economy.

The Fund is committed to delivering:

- A portfolio with a weighted average ESG rating that is better than the Refinitiv Global Focus Convertible Index
- Achieve a Weighted Average Carbon Intensity (WACI) which is lower than the Refinitiv Global Focus Index
- A Net Zero portfolio by 2050 or sooner
- Engagement to drive long-term ESG improvement

Approach

- Focuses on companies that demonstrate sound ESG characteristics as well as adaptability and resilience in the transition to a low carbon economy
- Each convertible security owned by the Fund is assigned an internal ESG rating by the CQS Research Team, irrespective of whether the security is rated by an external agency
- Follow the CQS five-stage RI process, with portfolio managers required to consider it as part of their decision making
- Thorough research by specialist analysts and extensive engagement activity
- Select stronger ESG issuers over weaker ones, all else being equal
- ESG laggards require detailed analysis, rationale and engagement to understand the risks and actions being taken by the company

Exclusions

The Fund's portfolio will exclude direct investment in issuers which:

- are involved in the production of controversial weapons
- derive greater than 10% of their revenue from direct involvement in tobacco sales, adult entertainment, gambling or payday lending
- derive any of their revenue from direct involvement in thermal coal and/or oil sands
- Companies that as far as the Investment Manager is aware are linked to or engage in activities deemed to be in breach of the Ten Principles of the UN Global Compact

CQS Global Sustainable Convertible Fund ESG Ratings⁷

We are a signatory to the Net Zero Asset Managers' initiative and our interim targets have now been approved and published. Please refer to the Net Zero Asset Managers' initiative website (<https://www.netzeroassetmanagers.org/signatories/cqs/>) for further details.

The CQS Global Sustainable Convertible Fund is an Article 8 Fund under the EU Sustainable Finance Disclosures Regulation ('SFDR'). This page does not represent the formal limits and/or restrictions set out in the Fund's investment policy.

Investors in shares denominated in a currency other than the base currency of the Fund may be affected by changes in currency movements. For full details of the relevant risks reference should be made to the risk factors sections of the Prospectus and Supplement.

Investment Approach

- Seeking upside participation in rising equity markets and downside protection (due to the bond floor) in weak equity markets
- Aiming to exploit opportunities in convertibles globally across diverse sectors, geographies and security profiles
- Disciplined investment process underpinned by deep fundamental research with integrated ESG analysis
- Active investment management and benchmark agnostic
- Committed to delivering a Weighted Average Carbon Intensity (WACI) and ESG rating that is better than the Refinitiv Global Focus Index, Net Zero by 2050 and engagement to drive long-term ESG improvement

Security Selection Process

- The Portfolio Manager focuses on individual convertible securities seeking to maximise investment opportunity and expected return asymmetry
- Selected securities continually compete for a place in the portfolio
- Catalysts for portfolio change include: relative valuation shifts, corporate news, new issuance, rating actions, upgrades / downgrades, corporate events, and calls / puts / maturities
- In-house credit ratings are used to evaluate the significant unrated portion of the market to add value

Portfolio Construction and Risk Management

- The Portfolio Manager seeks optimal portfolio risk / reward and diversification by issuer, geography and industry sector with appropriate position sizing
- Strict compliance with risk limits, monitored by an independent risk management team

Risks Involved

- Investments in global convertibles are primarily subject to equity, credit, interest rate and foreign exchange risk
- The Fund seeks to hedge foreign exchange risk using financial derivatives

Important Information

Source: CQS as at 30 November 2022.

¹Class C EUR launched 17 July 2015, Class C GBP launched 4 November 2015, Class C USD launched 27 May 2015, Class S CHF launched 7 June 2018, Class S EUR launched on 7 June 2018, Class S GBP launched 21 June 2018 and Class S USD launched 7 June 2018, Class I EUR, USD and GBP launched 13 May 2019, Class T USD launched on 30 June 2022.

²Target returns are estimated and net of anticipated fees, expenses and income reinvested. They are based on long-term performance projections of the investment strategy and market conditions at the time of modelling and are therefore subject to change. There is no guarantee that any target return can be achieved. Investors should not place any reliance on such target return in deciding whether to invest in the Fund. Target returns are for illustrative purposes only.

³The CQS Global Sustainable Convertible Fund (UCITS) a sub-fund of CQS Funds (Ireland) plc was approved by the Central Bank of Ireland on the 12 February 2015 and commenced investment activity 2 March 2015. Class returns are calculated net of all fees and expenses on the basis of a shareholding since inception of such class or, if such class has become dormant at any point following inception, since the first new investment into such class. Individual shareholders may have different returns depending upon the date of their investment. Investors should refer to each specific share class for the actual historical performance of the relevant class; please request full history of data from CQS. Reference Share Class is C USD.

⁴Weighted Average Delta: The delta of each instrument is weighted according to its market value. Cash is included with a delta of zero.

⁵The Fund may have since exited some or all of the positions detailed in this commentary.

⁶Weighted Average Carbon Intensity (“WACI”) is estimated using scope 1 & 2 available disclosures or proxy estimates based on comparative data from MSCI. For proxy estimates, we apply a waterfall approach which requires a minimum of 10 issuers within the proxy estimate group. If there are not 10 issuers in the proxy estimate group, it changes to a broader category group to increase the number of comparable issuers and continues moving to a broader group until a minimum group size of 10 issuers are obtained or ‘sector’ level is reached. The order is sub-industry first, then industry, then industry group, then finally sector. Please note that the WACI score does not include hedges for efficient portfolio management purposes.

⁷Index is the Refinitiv Global Focus Convertible Index. ESG ratings may not sum to 100% due to rounding. ESG ratings are attributed to issuers using either third party or internal ESG ratings assessed by CQS. The ratings range from AAA-CCC and are based on factors such as climate change, toxic emissions and waste, labour management, health and safety, privacy and data security, corporate governance and behaviour, and remuneration. A waterfall approach is used when assessing the ESG rating portfolio distribution and average rating of the portfolio, whereby (i) if a third party ESG rating is available that rating is used, failing which (ii) CQS’ rating will be used. ESG ratings may reflect the subjective opinions of CQS or the relevant third party and may be based on qualitative as well as quantitative data. ESG ratings may be based on unverified third party sources or unaudited financial and non-financial data. ESG rating are not an opinion of the creditworthiness of any issuer.

⁸Actual allocations at month-end. There is no guarantee that the Fund will invest in this way at all or do so in the same manner as set forth in this factsheet. Figures may not sum to 100 due to rounding.

⁹Average Credit Rating: Positions, including Cash, are weighted according to market value and internal credit ratings are used where externally sourced credit ratings are not available. Cash is rated as A+.

¹⁰Maturity or first put.

¹¹ESG Rating Analysis: MSCI ESG Research LLC. Please see MSCI ESG Rating disclaimer at the end of this report. All market data sourced from Bloomberg, Bank of America Merrill Lynch and UBS. Past performance may not be a reliable guide to future performance. The value of investments can go down as well as up.

Information contained in this document should not be viewed as indicative of future results as past performance of any Transaction is not indicative of future results. Any investment in a CQS Fund or any of its affiliates involves a high degree of risk, including the risk of loss of the entire amount invested. The value of investments can go down as well as up. Future performance is subject to taxation which depends on the personal situation of each investor and which may change in the future. Investments may lead to a financial loss if no guarantee on the capital is in place. An investment in any CQS Fund will involve a number of material risks which include, without limitation, risks associated with adverse market developments, currency and exchange rate risks, risk of counterparty or issuer default, and risk of illiquidity. Any assumptions, assessments, targets (including target returns and volatility targets), statements or other such views expressed herein (collectively “Statements”) regarding future events and circumstances or that are forward looking in nature constitute CQS’ subjective views or beliefs and involve inherent risk and uncertainties beyond CQS’ control. Any indices included in this document are for illustrative purposes only and are not representative of CQS Funds in terms of either composition or risk (including volatility and other risk related factors). Unless stated to the contrary CQS Funds are not managed to a specific index.

The information contained herein is confidential and may be legally privileged and is intended for the exclusive use of the intended recipient(s) to which the document has been provided. In accepting receipt of the information transmitted you agree that you and/or your affiliates, partners, directors, officers and employees, as applicable, will keep all information strictly confidential. Any review, retransmission, dissemination or other use of, or taking of any action in reliance upon, this information is prohibited. Any distribution or reproduction of this document is not authorized and prohibited without the express written consent of CQS, or any of its affiliates. Unless otherwise stated to the contrary herein, CQS owns all intellectual property rights in this document.

CQS is a founder of the Standards Board for Alternative Investments (“SBAI”) which was formed to act as custodian of the alternative investment managers’ industry best practice standards (the “Standards”). By applying the Standards, managers commit to adopt the “comply or explain” approach described in the Standards. CQS is a signatory of the UN Principles for Responsible Investment and a supporter and participant of certain other responsible investment related industry associations.

Investors should take into account all characteristics and objectives of the fund as set out in full in the fund’s supplement and/or prospectus. Further information on the investment manager’s ESG processes and commitments, including its Responsible Investment Policy, can be found on www.cqs.com.

Information required, to the extent applicable, for Distribution of Foreign Collective Investment Schemes to Qualified Investors in Switzerland:

The offer and the marketing of shares of the Fund in Switzerland will be exclusively made to, and directed at, qualified investors (the “Qualified Investors”), as defined in Article 10(3) and (3ter) of the Swiss Collective Investment Schemes Act (“CISA”) and its implementing ordinance, at the exclusion of qualified investors with an opting out pursuant to Art. 5(1) of the Swiss Federal Act on Financial Services FinSA”) and without any portfolio management or advisory relationship with a financial intermediary pursuant to Article 10(3ter) CISA (“Excluded Qualified Investors”). Accordingly, the Fund has not been and will not be registered with the Swiss Financial Market Supervisory Authority (“FINMA”) and no representative or paying agent have been or will be appointed in Switzerland. This material and/or any other offering or marketing materials relating to the shares of the Fund may be made available in Switzerland solely to Qualified Investors, at the exclusion of Excluded Qualified Investors. The legal documents of the Fund may be obtained free of charge from Citco Fund Services (Ireland) Limited, Custom House Plaza, Block 6, International Financial Services Centre, Dublin 1, Ireland.
